 - Insertion of foreign material under the skin.
 - Changing the color of hair at any point, spot or area on the animal's body (e.g. white hair may not be painted black).
 - The use of alcoholic or carbonated beverages in the feed or administered as a drench.

28. Exhibitor specifically represents that no animal entered by him/her is unethically fitted and that the breeding age is correctly stated.

JUDGES

29. The reputation and ability of a judge is considered during the selection process. Judges may have to explain their placings. This is part of the educational process which assists exhibitors and livestock producers to improve their stock.
30. The decisions of judges are final. The judge's decision cannot be protested. When fraud, misrepresentation, error or collusion is discovered, the Show Management or appointed referee may change final placement.

PROTESTS

31. A written protest with signature(s) must be delivered to the appropriate Department Superintendent within six (6) hours of a protested occurrence. Department Superintendent will immediately notify Executive Director of Protest. A \$250 deposit (cash, certified check or money order), must accompany the protest. The deposit will be forfeited if the protest is not sustained. Protests will be adjudicated by the Executive Committee; whose decision is final. A protest may only be submitted based on a violation of rules during the show.

PARADES AND CONTESTS

32. Exhibitors must ascertain when their livestock will be judged. Animals must be in the ring promptly after being called. Exhibitors failing to comply with this rule may have their animals excluded from competition.
33. If an exhibitor chooses not to show an animal in a class, he/she must notify the Division Superintendent before the class is called.

34. Exhibitors may be asked to parade their animal by the Show Management.
35. Exhibitors and their livestock which qualify to compete for any Grand or Reserve Champion selection must participate in these judging's as scheduled. Exhibitors that do not participate will forfeit all awards and premiums in addition to further sanctions as deemed necessary.
36. In order to provide meaningful livestock judging contests, Show Management reserves the right to select exhibitor's animals for use in such contests.

PREMIUMS AND AWARDS

37. Premiums and awards are stated in the Rules and Regulations of specific Divisions.
38. Arizona National Livestock Show may apply premium proceeds to amounts owed by an exhibitor, owner or their immediate family members. If such amounts owed are deducted from premium proceeds, a \$25.00 administrative fee may also be deducted. Premiums will be paid as soon as possible after the Arizona National Livestock Show.
39. If premiums are not received by February 28, please contact the Arizona National Livestock Show office. Premium checks are made out to the owner as named on the entry. Total premiums of \$600 or more to any individual will be paid only after the Show receives a completed IRS Form W-9. Checks not cashed within sixty (60) days of the date of issue are void and may not be reissued.

Passion is intense, powerful or compelling emotion and commitment. People with passion have fervor, enthusiasm and internal motivation. If you are passionate about showing livestock, chances are you treasure the time you spend feeding, training and grooming your animal. Passion helps you get your animal project started, allows you to complete it successfully and makes the show season enjoyable.

Did you know that passion also makes great leaders? People want to follow someone who motivates them with enthusiasm and creates a positive, uplifting environment. Passion opens doors for new opportunities and leads to fulfillment and success.

Check out the following Do's and Don'ts of passion below:

GUARD YOUR ENERGY: Just like your animal has to be conditioned and worked every day, you need to make sure that you are staying healthy. Although heading to the show and hanging out with your friends is a lot of fun, it's important to get enough sleep to make sure you are alert and present in the show ring.

DON'T COMPARE: There is a fine line between being inspired by other showmen and hindering your own initiative by thinking your efforts will never match up. It is necessary and helpful to get input from others, but comparison is harmful to passion.

ASK FOR INPUT: Positive and informative people, books and experiences encourage passion. Why not seek out a fitting or showmanship clinic that can help nurture and grow your passion?

DON'T DRUDGE: Habitual repetition with no room for creativity or improvement will result in a lack of passion and enthusiasm. It's important to do your daily chores to keep your animals healthy and comfortable, but be intentional about learning new training techniques to keep both you and your animal from getting bored.

WRITE DOWN YOUR GOALS: Writing down your personal goals can help bring clarity to what matters most. These goals can be anything from teaching your lamb to brace to winning the banner at your next show.

DON'T BE CYNICAL: A paranoid and suspicious view of others causes one to look for saboteurs and enemies. When negative thinking becomes the norm, passion and creativity disappear.

JUNIOR DIVISION DRUG RULES**DRUG**

The term "drug" shall mean any substance the sale, possession, or use of which is regulated by federal, state, or local law or regulation, as well as any substance used by the medical or veterinary professions that affects the circulatory, respiratory, musculatory, skeletal or central nervous system of any species of livestock. If drugs are used by the Official Show Veterinarian to treat a recognized disease in market animals, the withdrawal times listed by the drug manufacturer will be strictly followed.

MEDICATION RECEIVED PRIOR TO THE SHOW

Those animals that have consumed or been given, even under the care of a licensed veterinarian, any type of performance enhancing medication, drug, chemical, or substance, including but not limited to steroids, diuretics, anti-inflammatories, tranquilizers and pain killers, are ineligible for competition. Exhibitors with questions regarding medications or eligibility should consult with the official Arizona National Livestock Show Veterinarian prior to competition. In instances where an animal has been administered a drug that is FDA-approved for its species, the exhibitor must be aware that the time it takes for all drug residue to completely clear the system is generally longer than the labeled withdrawal time for most drugs and varies from animal to animal. Adequate time must have passed so that an exhibitor's animal does not test positive for drugs upon arrival. Once the animals arrive on the Arizona State Fairgrounds, they must remain free and clear of all residues included but not limited to medications, drugs, chemicals, and other substances.

MEDICATION DURING THE SHOW

For the convenience of exhibitors, the Arizona National Livestock Show arranges to have veterinarians available; however, they do not donate their services or medications. Fees should be discussed before treatment. Additionally, it is the exhibitor's responsibility to properly communicate to the veterinarians if the animal is eligible for further competition. All medication and treatment administered during the livestock show must be administered by the Official Arizona National Livestock Show Veterinarian and a written medication record must be filed. Animals receiving performance enhancing drugs (including, but not limited to, steroids, diuretics, anti-inflammatories, tranquilizers and pain killers) in this manner are ineligible for competition. The Official Show Veterinarian, along with Show management, is authorized to remove any animal from competition if the health, safety, or welfare of the animal is in question.

INSPECTION/TESTING:

- a. Each exhibitor, by entering or exhibiting an animal at the Arizona National Livestock Show, agrees that any animal entered by him or her may be subjected to inspection or examination by any veterinarian appointed by the Arizona National Livestock Show and that the Arizona National Livestock Show may subject any such animal to any tests, sample-takings, or inspections that Arizona National Livestock Show deems necessary or appropriate, including but not limited to testing for drugs or other substances, at any time. The Arizona National Livestock Show shall have the right to conduct or have conducted for it all tests, inspections, or analyses it deems appropriate or necessary, including but not limited to ultrasound, DNA, blood, tissue, and urine laboratory analysis, on any animal entered in or exhibited at the Arizona National Livestock Show. The exhibitor or approved substitute exhibitor (and, for Junior exhibitors, the exhibitor's parent, legal guardian, or AST or CEA) must be present

during the collection of an initial urine sample for testing and must witness, seal and sign the sample, thereby establishing that the sample was properly collected and prepared for analysis. Subsequent samples of any sort may be taken by or for Arizona National Livestock Show without the presence of the exhibitor or his or her parent, legal guardian or AST or CEA.

- b. All decisions, determinations, and conclusions based on any test, inspection, analysis, or examination shall be final and conclusive without recourse against Arizona National Livestock Show or any of its officers, directors, volunteers, and employees, or any veterinarian appointed by Arizona National Livestock Show.
- c. Each exhibitor, by entering and exhibiting an animal or project in or at the Arizona National Livestock Show, waives and releases the Arizona National Livestock Show from any and all claims, suits, causes of action, liabilities, damages, demands, costs, expenses (including attorneys' fees), and other losses of every sort based on, arising out of, or relating to the inspection or testing of any such animal and any ruling, decision or action taken as a result of or in reliance on the results of any test or inspection, whether or not such testing or inspection was conducted in compliance with these rules. The foregoing waiver and release applies to any causes of action, claims, and demands based on the Arizona National Livestock Show's actual or alleged negligence.
- d. The initial testing conducted at the election of Arizona National Livestock Show will be paid for by the Show. Payment for any other tests (i.e. testing of split samples, blood typing, etc.) required in the Junior or Open Livestock Show will be the sole responsibility of the exhibitor and at the discretion of the Official Show Veterinarian.

BREEDING ANIMALS

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to steroids, diuretics, anti-inflammatories, tranquilizers and pain killers.

WHOLESOME ASSURANCE STATEMENT

All exhibitors must read, agree and abide by the Wholesome Assurance Statement in the Premium Book. By certifying an entry each junior exhibitor, exhibitor's parent or legal guardian acknowledges that he/she has read all rules and regulations of the Arizona National Livestock Show premium book, and clearly understands and agrees to abide by all said rules and regulations and the Premium Book in its entirety.

Further, all signatories understand and agree specifically to those rules that define animal testing, DNA requirements and procedures as well as the Wholesome Assurance Statement and USDA Wholesome Meat Act.

WHOLESOME MEAT ACT

The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited:

- a. Animals must be in good health and carcasses free of drug or chemical residues.
- b. Drug label directions for use and withdrawal periods must be followed.
- c. If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned. The Arizona National Livestock Show will in no way be liable or responsible for the condition of carcasses or the sale price of the animal.

FEDERAL FOOD, DRUG AND COSMETIC ACT

As required in 21 CFR 589.2000, entry in the Junior Market Steer, Junior Market Goat, Junior Market Lamb, and Junior Market Barrow Show shall serve as verification by the exhibitor that, to the best of their knowledge, while under their ownership, possession or direct control, the animal(s) were not fed any feed containing ruminant-derived meat or bone meal. Entrants agree to allow packer inspections of feed ingredient records and facilities.

CONSEQUENCES OF UNETHICAL DRUG USE

In the event that Arizona National Livestock Show determines any animal to be in violation of show drug rules, the Executive Committee is authorized to disqualify the exhibitor and his or her animal and may permanently bar the exhibitor and his or her family from any further participation in the Arizona National Livestock Show. Reinstatement of any barred exhibitor may be made only by the Executive Committee. The exhibitor will forfeit all titles, awards, prizes, auction proceeds, premiums and scholarships if the animal or exhibitor is disqualified. Market/Floor money will be forfeited if the animal is condemned at slaughter or deemed un-merchantable. The Arizona National Livestock Show, in cooperation with member shows of the North American Livestock Show and Rodeo Managers Association, reserves the right to submit the name(s) of any disqualified exhibitor to the organization's Rule Infraction Database. The Arizona National Livestock Show reserves the exclusive right to categorize drug use in one of the categories listed below. If an animal is disqualified, changes will not be made to the placings of other animals

CONSEQUENCES OF POSITIVE DRUG SAMPLE RESIDUE

Arizona National Drug Classification	Consequence
Category 1 – Drugs that are labeled for use in that species and have established withdrawal times	Any drug residue found that is labeled for that specie will result in immediate disqualification for current year show and forfeiture of premiums/auction money. Exhibitors will be banned for three (3) years with opportunity for appeal and re-admittance after suspension. Exhibitors who are re-admitted and whose animals are found to have Category 1 drug residues a second time will be immediately disqualified from the current show, forfeit premium/auction money and be banned from all future shows.
Category 2 – Drugs/substances that are not labeled/approved for use in that species (includes, but is not limited to: caffeine, marijuana, phenylbutazone)	Any drug/substance residue found that is not approved for use constitutes immediate disqualification from current show and lifetime ban from future shows, forfeiture of premiums/auction money.

The Arizona National Livestock Show supports and endorses the Wholesome Assurance Statement as listed below. The Arizona National Livestock Show is a zero tolerance show and as such has adopted a more stringent policy with regard to actionable levels of drugs, pesticides, feed additives or other chemicals.

WHOLESOME ASSURANCE STATEMENT

- The use of animal drugs or other substances by non-veterinarians in any manner other than in accordance with the labeling approved by FDA, is a violation of federal law. *
- Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substance (identified or unidentified), including drugs, pesticides, feed additives, or other chemicals.
- Violative results of residue testing are subject to investigation by USDA and FDA for prosecution.
- Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.
- Manual of Meat Inspection: The Manual of Meat Inspection Procedures of the USDA states that carcasses must be free of actionable levels of antibiotics, hormones, or pesticide-chemicals to pass as safe and wholesome food. Detection of illegal residues of these substances may lead to stiff penalties on the part of the producer. Therefore, label instructions, precautions, warnings, and withdrawal periods must be carefully followed.

** Note: Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.*

Drug withdrawal periods must be completed prior to arrival at the show.

**PLEASE CONSULT YOUR PROJECT LEADER IF YOU
DO NOT UNDERSTAND ANY OF THESE STATEMENTS**

NATIONAL CODE OF SHOW RING ETHICS

AS ADOPTED BY THE ARIZONA NATIONAL LIVESTOCK SHOW

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior class exhibitors who compete in structured classes of competition. This code applies to all junior livestock offered in any event at a livestock show. In addition to the "National Code of Show Ring Ethics," fairs and livestock shows have rules and regulations which they impose on the local, county, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the Code of Ethics will forfeit premiums, awards and auction proceeds, and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this Code of Ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

THE FOLLOWING IS A LIST OF POLICIES FOR ALL JUNIOR EXHIBITORS AND ALL JUNIOR LIVESTOCK IN COMPETITIVE EVENT

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show, in events where they will enter the food chain, free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.
5. If the laboratory report on the analysis of saliva, urine, blood or other samples taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.
6. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by an Arizona National Livestock Show approved licensed veterinarian.
7. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
8. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
9. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the

competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

10. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this Code of Ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this Code of Ethics.
11. The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics.
12. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be shared with other fairs, livestock shows and organizations of fairs or livestock shows.
13. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read this National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by this code. It is further a consent that any action which

contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Judging and time will begin when the horse enters the arena. Order of go will be determined by a draw immediately prior to the contest.

9. The contestant will enter the arena mounted on his/her horse and immediately go into the reining pattern (see diagram; pattern is subject to change). Starting with a large circle and a half to the left, change leads and circle to the right once, change leads and circle to the left once, and then change leads again for one final circle to the right. There are a total of three (3) lead changes.
