foreword

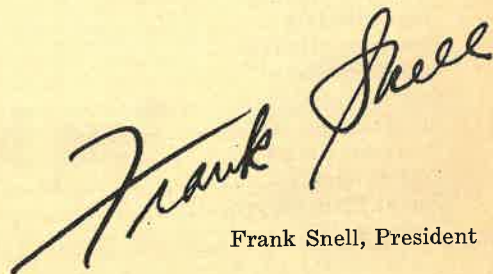

It is, as always, a great pleasure to welcome you all, on behalf of the Board of Directors, Advisory Council, Officers and Members of the Arizona National Livestock Show, to the Sixth Annual Arizona National.

Repetitious as the words may seem, they again apply because the 1954 Arizona National exceeds all previous shows in the number of exhibitors and cattle entered. The Junior Division this year has made the greatest strides ever in number of exhibitors, number of states represented, and in actual count of cattle shown. If the Arizona National, from year to year, accomplishes nothing more than to encourage and guide these youngsters, it would most certainly justify its every effort. I'm sure I speak for all of us who have a part in the Arizona National when I say we are extremely proud of the performance of these youngsters.

May I take this opportunity to thank our Directors, our Advisory Council, our Members and the many, many other fine people who have unselfishly devoted their time and talents throughout these years. It is an inspiration to work with them. Without their cooperation the Arizona National could never have attained its outstanding position.

Again, a hearty welcome . . . and don't hesitate to ask our show officials and our Arizona cattlemen for any service or information we can give that will make your visit more pleasant and entertaining.

Sincerely,

Frank Snell, President

LIVESTOCK SANITATION REGULATIONS

No animal shall be admitted or remain on the Fair Grounds that shows any evidence of any communicable disease.

The management reserves the right to require necessary health inspections and tests to be made before or after cattle are on the grounds. The further right is reserved to order or cause peremptory removal of any animal which does not in every respect meet the health requirements. Health certificates in accordance with the following regulations must be presented to the authorized officials before cattle are placed in the barns or on the grounds. The certificates must be in the hands of attendants and available for inspection by officials at all times.

Entries originating outside of Arizona must obtain a permit from the State Veterinarian's office, Capitol Building, Telephone No. AL 3-0807, Phoenix, Arizona, prior to shipment. Entries must comply with tuberculosis and brucellosis regulations as outlined below. Telegraphic permits may be granted in cases of emergency.

TUBERCULOSIS: Entries not from accredited herds or modified accredited areas must pass a negative tuberculin test within three months prior to the opening date of the show. All health certificates must carry identifying data on each individual animal.

BRUCELLOSIS: Entries over twelve months of age, except steers, must be accompanied by a certificate from a recognized laboratory showing negative agglutination test of each animal, made not more than thirty days prior to the opening date of the show.

No animal will be accepted for entry from any herd showing 10% or more reactors on any test conducted not more than ninety days prior to the opening date of the show.

CALFHOOD VACCINATION: Official vaccination certificate must accompany each entry. Entries shall be accepted up to thirty months of age and must have identifying tattoo in left ear.

In the case of cattle arriving without necessary tests, the management reserves the right to have tests made on arrival at owner's expense.

Controversial health questions involving any entry in the Arizona National Livestock Show shall be referred to the Arizona State Veterinarian, and his decision and disposition shall be final.

CATALOG OF ENTRIES

The ARIZONA STATE FAIR COMMISSION plays an important part in making the Arizona National a success. They not only offer the fine facilities to house the livestock but pay approximately \$7500 toward the premiums in all breeds. These premiums are paid directly to the winners by the Fair Commission.

HEREFORD FEEDER STEERS

The commercial cattleman is provided with the opportunity of competitive comparison by exhibiting at the Arizona National.

Here he learns what is lacking in his breeding program to bring the best to the buying public. Quality is the all important factor and by exhibiting against his fellow breeder he can determine what quality really is.

NOTE: STEERS TO BE RECLASSIFIED AFTER WEIGHING

There will be pens of five (5) and twenty (20). These steers to be exhibited under one brand and by the breeder of the calves. Calves are not to be placed on supplemental feed before October 1st, 1953.

Judges shall be instructed to discriminate against feeder calves which, in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.

No unmerchantable cattle may be entered in feeder classes.

Steers to be weighed for classification just prior to Judging.

All feeder calf class entries must be sold through the auction ring.

Steers are to be weighed straight across immediately after being sold with no shrink.

CLASS 6

QUALITY GIVES A LIFT

(Editorial, p. 9, American Hereford Journal Nov. 15, 1953)

Yes, this year quality comes into its own!

When demand for beef is great, and prices of beef are high, quality cattle do not bring as much premium as they are entitled to. When demand falls off, prices are low, and cattle hard to sell—then quality cattle sell first and at premium prices.

This latter situation prevails now. The accent is on quality! Quality gives a lift!

WHR Elite Triumph 60, with quality to burn, will do his part to keep **SUNCREST** out in front in the production of **Quality Herefords**. Show visitors may see him at our Scottsdale Ranch.

Drive out Thomas Road to Scottsdale Road; go south one-half mile to Suncrest-Scottsdale, valley home of Suncrest Herefords.

What's A Year to A Cow ?

Paraphrasing the old gag "what's time to a hog," we don't suppose time means much to a cow. It means a lot to us who have charge of formulas and feed development for the Arizona Flour Mills.

When we refer to "cow years" and "animal days," it is the time during which we have had the animals on specific tests.

In the development of Arizona Star Range Booster for range feeding, and Beef Booster for feed lot use, we conducted tests totaling 857,000 animal days. (1 animal 1 day on test.)

All of this work was directly contributory to the development of the new energy feed, Erly-Fat. However, 145,965 additional animal days were spent in further specific test work with Erly-Fat.

In the development of these three products over a five year period, there were tests conducted totaling 1,002,965 animal days. This is the equivalent of 100 animals on continuous tests for over 27 years.

Yes, "a year to a cow" means a lot of information for us when she is involved in our feed tests. The Arizona Flour Mills conducts continuous tests to put more profit for you in the Arizona Star Cattle Feed sacks.

FEEDER STEER CLASSES

There will be pens of five and twenty head of steers. These steers to be shown by the breeder of the calves or an authorized agent of the breeder. No exhibit to consist of two or more breeders. Calves are not to be placed on supplemental feed before October 1, 1953. Steers are to be weighed straight across immediately after being sold (with no shrink).

Judges shall be instructed to discriminate against feeder calves, which in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.

FEEDER STEER CLASSES

There will be pens of five (5) and twenty (20). These steers to be exhibited under one brand and by the breeder of the calves. Calves are not to be placed on supplemental feed before October 1st, 1953.

Judges shall be instructed to discriminate against feeder calves which, in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.

No unmerchantable cattle may be entered in feeder classes.

Steers to be weighed for classification just prior to Judging.
All feeder calf class entries must be sold through the auction ring.
Steers are to be weighed straight across immediately after being sold with no shrink.
