foreword

Welcome to Phoenix and the Arizona National Livestock Show.

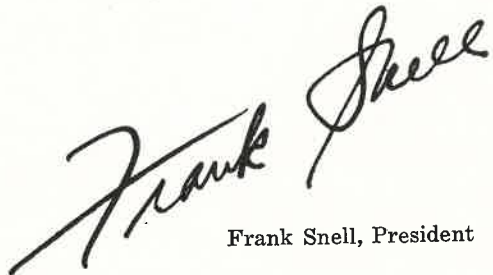

It is particularly pleasing to have you here in 1955, to participate in and witness the biggest and best show in our history. The first show in 1948 had 449 cattle on exhibit. This year we've gone over the 1,000 mark, to achieve what has been a milestone for us.

Another milestone, of primary interest to the Hereford breeders, has also been reached this year. The Arizona National is now one of the American Hereford Association's 10 "Register of Merit" shows.

Our junior exhibitors continue to set new records in that division and as they attain each new height we feel a warm glow inside—because we have had a part in the growth and development that will make them leaders of tomorrow.

On behalf of the Board of Directors, Advisory Council, officers and members of the Arizona National may we once again extend a hearty welcome to all of you. Please feel free to call on us for any service or information that will make your visit more pleasant and entertaining.

Sincerely,

Frank Snell, President

LIVESTOCK SANITATION REGULATIONS

No animal shall be admitted or remain on the Fair Grounds that shows any evidence of any communicable disease.

The management reserves the right to require necessary health inspections and tests to be made before or after cattle are on the grounds. The further right is reserved to order or cause premtory removal of any animal which does not in every respect meet the health requirements. Health certificates in accordance with the following regulations must be presented to the authorized officials before cattle are placed in the barns or on the grounds. The certificates must be in the hands of attendants and available for inspection by officials at all times.

Entries originating outside of Arizona must obtain a permit from the State veterinarian's office, Capitol Building, Telephone No. AL 3-0807, Phoenix, Arizona, prior to shipment. Entries must comply with tuberculosis and brucellosis regulations as outlined below. Telegraphic permits may be granted in cases of emergency.

TUBERCULOSIS: Entries not from accredited herds or modified accredited areas must pass a negative tuberculin test within three months prior to the opening date of the show. All health certificates must carry identifying data on each individual animal.

BRUCELLOSIS: Entries over twelve months of age, except steers, must be accompanied by a certificate from a recognized laboratory showing negative agglutination test of each animal, made not more than thirty days prior to the opening date of the show.

No animal will be accepted for entry from any herd showing 10% or more reactors on any test conducted not more than ninety days prior to the opening date of the show.

CALFHOOD VACCINATION: Official vaccination certificate must accompany each entry. Entries shall be accepted up to thirty months of age and must have identifying tatoo in left ear.

In the case of cattle arriving without necessary tests, the management reserves the right to have tests made on arrival at owner's expense.

Controversial health questions involving any entry in the Arizona National Livestock Show shall be referred to the Arizona State Veterinarian, and his decision and disposition shall be final.

CATALOG OF ENTRIES

The ARIZONA STATE FAIR COMMISSION plays an important part in making the Arizona National a success. They not only offer the fine facilities to house the livestock but pay approximately \$7900 toward the premiums in all breeds. These premiums are paid directly to the winners by the Fair Commission.

HEREFORD FEEDER STEERS

The commercial cattleman is provided with the opportunity of competitive comparison by exhibiting at the Arizona National.

Here he learns what is lacking in his breeding program to bring the best to the buying public. Quality is the all important factor and by exhibiting against his fellow breeder he can determine what quality really is.

There will be pens of five, only. These steers to be exhibited under one brand and by the breeder of the calves. Calves are not to be placed on supplemental feed before October 1, 1954.

Each exhibitor is limited to two entries in each class.

Judges shall be instructed to discriminate against feeder calves which, in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.

No unmerchantable cattle may be entered in feeder classes.

STEERS TO BE WEIGHED FOR RECLASSIFICATION JUST PRIOR TO JUDGING.

All feeder calf class entries must be sold through the Auction Ring.

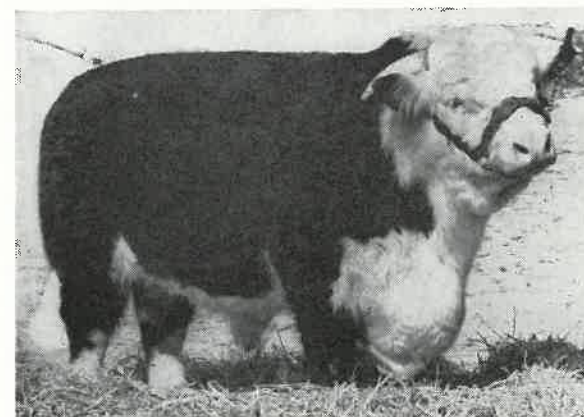

Steers are to be weighed straight across immediately after being sold with no shrink.

Steers may be fed after October 1st at either Arizona State College, Tempe or University of Arizona, Tucson.

Suncrest

has been using its advertising space in the Arizona National Livestock Show catalog to introduce our herd sires to show visitors

This time we present

VERN DIAMOND, No. 755555

Owned jointly with Wyoming Hereford Ranch

For the first time in the history of our Arizona Hereford Association shows, Suncrest did not fit an exhibit herd for the '55 show. We regret that representative individuals of our herd will not be in the show barns for you to see.

Instead, we invite you to visit our Suncrest-Scottsdale Ranch to see our breeding herd and our 1954 calves—including bull and heifer calves by VERN DIAMOND.

FEEDER STEER CLASSES

There will be pens of five only. These steers to be exhibited under one brand and by the breeder of the calves. Calves are not to be placed on supplemental feed before October 1, 1954.

Each exhibitor is limited to two entries in each class.

Judges shall be instructed to discriminate against feeder calves which, in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.

No unmerchantable cattle may be entered in feeder classes.

All feeder calf class entries must be sold through the Auction Ring.

A Beef Producing Program

Arizona Star Feeds for the beef cattle industry are not just desk figured formulas that we hope will work.

For ten years we have been extensively testing range and fattening formulas under experimental and commercial conditions. We have developed a program for producing beef from the calf's birth on the range to the slaughter house.

Our Arizona Star Range Boosters have been so successful that they are known throughout the southwest. Our Arizona Star Beef Boosters and Silage Supplement is very successfully used in many areas.

Our research staff is headed by Dr. Bartley Cardon—Nutritionist assisted by James Ware and Gordon Lent, all with advanced degrees in chemistry and nutrition.

Our experimental program keeps abreast with latest developments and tests by means of artificial rumen fermentation, feed pen testing, digestion stall tests and practical field results.

Beef is our business too. A major effort of the Arizona Flour Mills is formulating and developing a practical, profitable program for beef producers.

BRUCELLOSIS: Entries over twelve months of age, except steers, must be accompanied by a certificate from a recognized laboratory showing negative agglutination test of each animal, made not more than thirty days prior to the opening date of the Show.

No animal will be accepted for entry from any herd showing 10% or more reactors on any test conducted not more than ninety days prior to the opening date of the Show.

CALFHOOD VACCINATION: Official vaccination certificate must accompany each entry. Entries shall be accepted up to thirty months of age and must have identifying tattoo in left ear.

In case of cattle arriving without necessary tests, the management reserves the right to have tests made on arrival at owner's expense.

TRUCKING

Exhibitors trucking cattle into the Show from out of the state of Arizona will be furnished with a courtesy letter upon request which will permit them to cross the state line without purchasing Arizona plates. This request should be sent in along with entries.

TRANSPORTATION

As a special service to the exhibitors who plan on going from Phoenix to the Denver Livestock Show, the Santa Fe Railway Company has arranged a schedule which will provide for fourth morning delivery in Denver on show cattle from Phoenix, providing that cattle are so loaded that there is room in the car for feed, water and rest without unloading. There must, of course, also be a caretaker in the car. This will mean that cattle leaving Phoenix Saturday afternoon, Jan. 8th, will arrive in Denver Wednesday morning, January 12th.

Nearest and most convenient rail unloading facilities are on Santa Fe tracks one block from the Show Grounds. Shipments routed into Phoenix on the Santa Fe may be unloaded at that location without additional switching charges.

There will be a representative of the Santa Fe at the superintendent's office on the grounds the morning of the 3rd and the 8th.
