foreword

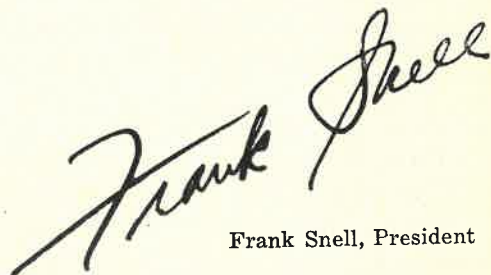

The Officers, Board of Directors, Advisory Council and Members of the Arizona National Livestock Show extend to you a most hearty welcome. It is our sincere hope that your visit to this ninth annual show will prove interesting and enjoyable.

Our steady growth has gained for us National prominence and we can now boast exhibits of top quality cattle from Coast to Coast and Border to Border. Even with this growth we are attempting to maintain our air of informality and Southwestern Hospitality which we extend to all who visit our show.

The Cattlemen of tomorrow, our 4H and Future Farmer exhibitors, are indeed a credit to our show and the increase in entries prove they have confidence in the Arizona National and are well prepared to lead the cattle industry in the future as evidenced by the top quality cattle shown.

We are here to see that you enjoy your visit to the Arizona National and if we can be of any service, feel free to call on us. It is our sincerest desire that your visit to our show will be so enjoyable you will make every effort to be with us in future years.

Sincerely,

Frank Snell, President

The further right is reserved to order or cause preemptory removal of any animal which does not in every respect meet the health requirements. Health certificates in accordance with the following regulations must be presented to the authorized officials before cattle are placed in the barns or on the grounds. The certificates must be in the hands of attendants and available for inspection by officials at all times.

Entries originating outside of Arizona must obtain a permit from the State Veterinarian's office, Capitol Building, Telephone No. AL 3-0807, Phoenix, Arizona, prior to shipment. Entries must comply with tuberculosis and brucellosis regulations as outlined below. Telegraphic permits may be granted in cases of emergency. **TUBERCULOSIS:** Entries not from accredited herds or modified accredited areas must pass a negative tuberculin test within three months prior to the opening date of the Show. All health certificates must carry identifying data on each individual animal. **BRUCELLOSIS:** Entries over twelve months of age, except steers, must be accompanied by a certificate from a recognized laboratory showing negative agglutination test of each animal, made not more than thirty days prior to the opening date of the Show.

CALFHOOD VACCINATION: Official vaccination certificate must accompany each entry. Entries shall be accepted up to thirty months of age and must have identifying tattoo in left ear.

In case of cattle arriving without necessary tests, the management reserves the right to have tests made on arrival at owner's expense.

Confidence

IS AN IMPORTANT PART OF BUSINESS

You can
put your
confidence in
the breed
... and
the breed
publication
... for best
results!

Confidence is that "certain something" called trust, faith, reliance, belief and it is an important part of the Hereford and Polled Hereford business. Just as confidence is a part of the breed, so is The American Hereford Journal, the breed publication.

The Hereford Journal has been serving Hereford breeders (both Horned and Polled) for more than 46 years. That it has been published continuously for so many years indicates the service it renders breeders who use it.

Just as the breed publication builds confidence, you can build confidence and customer interest in your cattle by advertising in The Hereford Journal. For best results, put your confidence in Herefords and in The Hereford Journal. They'll BOTH get the job done for you!

Published on the first and fifteenth of each month.

ONE OF THE COUNTRY'S TOP**BRANGUS HERDS****THE BREED WITH A FUTURE****What are Brangus Cattle?**

Brangus cattle are a blend of purebred Angue cattle and purebred Brahman cattle carrying $\frac{5}{8}$ Angus blood and $\frac{3}{8}$ Brahman blood.

Advantages of Brangus Cattle

1. Brangus are polled.
2. Brangus are Black in color.
3. Brangus has excellent marbled red meat.
4. Brangus retain the sweat glands and thus withstand heat better.
5. Brangus are resistant to flies, ticks, worbles, pink eye, and other common cattle troubles.
6. Brangus are good foragers and rustlers.
7. Brangus mature quicker, thus heavier weaning weights.

The ultimate objective of any breeding program is BEEF ON THE TABLE, we have had this proof time and again. Many times YVCC Brangus cattle have topped the L. A. Market. Last year a carload lot was Reserve Grand Champions at the Cow Palace.

FEEDER STEER DIVISION

The commercial cattleman is provided with the opportunity of competitive comparison by exhibiting at the Arizona National.

Here he learns what is lacking in his breeding program to bring the best to the buying public. Quality is the all important factor and he exhibiting against his fellow breeder he can determine what quality really is.

SPECIAL RULES

2. Each exhibitor is limited to two entries in each class.
3. Judges shall be instructed to discriminate against feeder calves which, in their opinion, are too fat to be profitable in the feedlots. The decision of the judge is to be made on the same basis as the cattle buyer would judge calves in purchasing them for feedlot purposes.
4. No unmerchantable cattle may be entered in feeder classes.
5. Steers to be weighed for classification just prior to judging.
6. All feeder calf class entries must be sold through the Auction Ring.

4. Contestant must be clean, neat, alert and follow explicitly instructions given by the judge.
5. Courteous, particularly to the judge and other contestants.
6. Is prepared to give prompt and correct answer to any question asked by the judge.
7. Keeps an eye on the judge and at the same time keeps the animal in the proper position.
8. Is a good sport and if a loser will offer congratulations to first prize or champion winner.

THERE'S A "BEST OF FEED," TOO...

Just as it takes an abundance of good characteristics to result in a "Best of Breed" in the show ring, the outstanding quality of Red Star Cattle makes them "Champions" on the range and in the feed lot.

Red Star Cattle Feeds are formulated by men with years of experience in feed-mixing. Only the finest ingredients are used. Vitamins, minerals, proteins are scientifically balanced in Red Star Feeds to give your cattle all the nutrients they need for rapid growth. And Red Star Cattle Feeds are highly palatable.

Not all cattle can be champions . . . but they can eat and grow big like champions. Put your cattle on Red Star Feeds for increased growth and greater profits.

**ARIZONA STAR PROVEN FEEDS**

CONVERSION is a common term used in the cattle industry today. It means the pounds of feed required to produce a pound of gain or a pound of butterfat or a dozen eggs. It is a term which measures efficiency. Everyone engaged in the livestock field today must be vitally concerned with conversion.

Efficiency of production comes about through three principle ways. The first is breeding for more efficient animals. The second is developing more efficient management methods. The third is increasing the efficiency of the feeding program. Our company is vitally concerned with developments in this third field.

Research and advancement go hand in hand, particularly in the field of nutrition. Time and effort is continually being expended by university and federal researchers to secure new and fundamental information.

However we, The Arizona Flour Mills, as feed manufacturers for Arizona, must apply this basic data efficiently and profitably for you, the Arizona producer.

Since 1932 we have been doing just that. We have continually improved our facilities to the present Animal Nutrition Laboratory. All this adds to the value of Arizona Star Feeds. The personnel of this research laboratory are also available to help you with your individual problems.

TRANSPORTATION

As a special service to the exhibitors who plan on going from Phoenix to the Denver Livestock Show, the Santa Fe Railway Company has arranged a schedule which will provide for fourth morning delivery in Denver on show cattle from Phoenix, providing that cattle are so loaded that there is room in the car for feed, water and rest without unloading. There must, of course, also be a caretaker in the car. This will mean that cattle leaving Phoenix Sunday afternoon, Jan 6th, will arrive in Denver Thursday morning, January 10th.

Nearest and most convenient rail unloading facilities are on Santa Fe tracks one block from the Show Grounds. Shipments routed into Phoenix on the Santa Fe may be unloaded at that location without additional switching charges.
