foreword

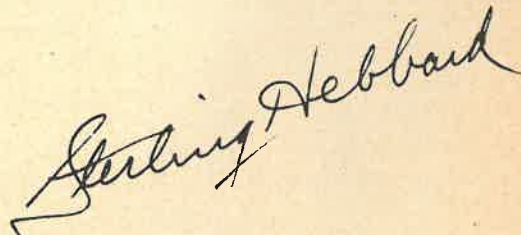

We are happy to have you with us at our Twelfth Annual Arizona National Livestock Show. We are most anxious that you enjoy your visit to Arizona and the Arizona National, and please call upon us for any service that we may be able to render.

The Officers, Board of Directors, Advisory Committee and members of the Arizona National Livestock Show hope your visit will prove interesting and enjoyable. The growth of the Show has been very satisfactory. We have gained national prominence and are now considered one of the larger shows of the nation. We have exhibitors from approximately one-third of the states in the United States showing top quality cattle, and we are endeavoring even with this growth to be able to extend to all of our visitors the Southwestern hospitality.

The 4-H Club and F.F.A. exhibitors we are very proud of, and they are the exhibitors who are our future cattlemen. The increased entries substantiate their confidence in the Arizona National. They are a credit to our Show and have prepared themselves very well, as proven by the quality of cattle they exhibit, insuring the future industry of the cattle business.

We sincerely hope that your visit to our Show and State will have pleased you sufficiently to assure your return in the years to come and, again, rest assured we will do our part to make your visit an enjoyable one.

Sincerely,

Sterling Hebbard, President

Years Ago

...when Arizona was very young the only equipment a prospector needed was a pick, shovel and a burro. But the rich copper ores he found practically on the surface were soon exhausted. So the prospector packed up and left, leaving the low-grade ores which took too much time and effort to dig.

Much of this low-grade ore remained untouched until companies like Kennecott Copper Corporation brought modern open pit mining to Arizona. This low-grade ore yields only 800 pounds of copper from 100,000 pounds of ore. But through Kennecott's consistent research and constantly improving methods of copper recovery... and its multi-million dollar expenditures within the state... Kennecott helps Arizona lead the nation in copper production.

In doing so, Kennecott's payrolls, purchases and tax payments contribute greatly to the economy of all Arizona.

CHAROLAIS PRESENTS

QUALITY . . . with a profit

Better breeding, the top accomplishment of good management, offers the best opportunity of profit to the producer. It means increasing an animal's rate of gain through inherited ability to make more economical use of feed—by converting it into more flesh at a faster rate of speed. It means added income from your sale of breeding stock.

Charolais will add better breeding to your herd—and through quality will insure profit.

Dear Livestock Producer:

The Science of Livestock Production is very complex. Many talents and individuals have contributed to it. The statement, "It takes all kinds of people to make a world," can properly be paraphrased into "It takes all of the sciences to make a successful livestock operation."

Our business, interest, and contribution to this field is nutrition. Through the years we have developed an Experimental Livestock Farm and Laboratory in which we can test and prove the nutritional value of nutrients, combinations of nutrients, and complete feeds which will do the best job under specific conditions. The feeds we produce and sell have been tested and proved able to do the job they are recommended to do.

We would like to work with you and help you solve the problems in one of the sciences concerned with your business -
THE PROPER NUTRITION OF YOUR LIVESTOCK.

Sincerely yours,

ARIZONA FLOUR MILLS
