foreword

Again it is a pleasure to welcome you, on behalf of the Officers, Board of Directors, Advisory Council and Members, to the 1962 Arizona National Livestock Show.

It is you, the participants in the Show, and the visitors, who continue to make this the quality Show it is and make possible its continued growth.

Each year the Arizona National gains additional prominence in the nation, brought about by the quality of cattle that are exhibited, the number of states that the exhibitors are from, and this produces the result that expresses your confidence in our Show. It is deeply appreciated by all of us.

With the limited facilities we have, we try to improve our Show each year and your sustained active interest is necessary for us to achieve our goals.

The entries of the 4H and Future Farmer exhibitors indicate their continuing confidence in the Arizona National, which again assures our continued growth. This Junior Division, as it is called, justifies the confidence you have placed in them and your encouragement to these exhibitors in this Junior Division is essential for them to fulfill their objectives and become the future cattlemen of our country.

Should we be able to lend any assistance to you while you are here with us, please feel free to call upon us. We think you will be impressed with the Show and we look forward to your continued participation in future years.

Sincerely,

Sterling Hebbard, President

...but we tackle our problems your way

Many a veteran cowman remembers when \$150 would buy the best bull in Arizona. And old time mining men remember when Arizona's copper ore deposits were so rich that even with crude equipment it was possible to recover 150 pounds of pure copper per ton.

Today, many of you Arizona cattlemen have bulls that cost thousands of dollars—because you know that quality breeding pays off. You use every known method to increase calf crops, minimize disease, lower mortality. And you strive to improve rate-of-gain, dress-out percentage, and carcass quality.

In Kennecott's Ray Mines Division, we've had to spend money to make money, too. By investing many millions of dollars, we've turned what was once a "worthless" mountain—containing only 8/10ths of one-percent copper—into a mine that excavates and processes 22,500 tons of ore per day. By doing this, we've added \$15,000,000 per year to Arizona's economy—in wages, taxes, and local purchases.

Like you, we sell what we produce on the open market—at prices governed by supply and demand. And we believe, as you do, that to keep on making a profit we've got to keep on improving our methods.

THERE'S A "BEST OF FEED," TOO...

Just as it takes an abundance of good characteristics to result in a "Best of Breed" in the show ring, the outstanding quality of Red Star Cattle Feeds is that it makes them "Champions" on the range and in the feed lot.

Red Star Cattle Feeds are formulated by men with years of experience in feed-mixing. Only the finest ingredients are used. Vitamins, minerals, proteins are scientifically balanced in Red Star Feeds to give your cattle all the nutrients they need for rapid growth. And Red Star Cattle Feeds are highly palatable.

Not all cattle can be champions . . . but they can eat and grow big like champions. Put your little cattle on Red Star Feeds for increased growth and greater profits.

**Arizona Star Feeds
have always had
Trace Minerals
NOW
they're chelated . . .**

Everyone knows the importance and necessity of trace minerals in the animal ration. Maximum and most efficient growth can only occur when adequate amounts of properly balanced trace minerals are provided. The problem has been to provide these minerals in a form that would make them available to the animal and that would not form among themselves unavailable complexes that would pass through the animal unused.

In November 1960, our Nutritionist, Dr. B. P. Cardon, was granted Patent No. 2,960,406, covering the process of adding trace minerals to the animal ration in chelated form. Chelation builds a chemical fence around each mineral so that all are available for use by the animal.

Arizona Milling Company is proud to be the first to offer a complete line of poultry and animal feeds containing chelated trace minerals. When you feed Arizona Star Feeds you know the trace minerals you are buying are being used by your livestock.

For further information, contact your nearest Arizona Milling Company office or Dr. B. P. Cardon, P. O. Box 5048, Tucson, Arizona.

FAST-MOVING FARM HAND

Swift and speedy . . . yes, indeedy! Reddy Kilo-watt makes quick work of a lot of farm chores that were real back-breakers in Grandad's day. If Reddy isn't already pumping your irrigation and livestock water, grinding your feed, milking your cows or shearing your sheep, it's high time you put him on the job. Ask your Public Service representative to show you how many farm jobs Reddy can do!

As in the past the Santa Fe Railway will provide service to our exhibitors who plan to go to the Denver Livestock Show. Their schedule will permit livestock to leave Phoenix either Saturday evening or Sunday evening, arriving Denver in ample time for preparation for that show. It will be necessary to provide room in the car for feed, water and rest, without unloading and that a caretaker accompany the car.
