CONDUCT

15. Direct criticism or interference with the judge, livestock show management, volunteers, other exhibitors, breed representatives or show officials before, during or after the competitive event is prohibited. In the furtherance of their official duty, all judges, livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
16. Only animals participating in the Arizona National Livestock Show are permitted to be on the fairgrounds during the Arizona National Livestock Show unless approved

and arranged for specific purposes by the Executive Director.

17. Exhibitors are expected to properly care for their animals and to maintain the cleanliness and orderliness of their animals, stalls and pens. Department Superintendents will notify exhibitors of improper care or inappropriate treatment. The Superintendent, in concurrence with the Executive Director, may disqualify the animal(s) and require immediate removal from the grounds if improper care or inappropriate treatment continues after notification.

UNETHICAL FITTING

18. Exhibitors are prohibited from showing unethically fitted livestock or livestock of an ineligible age for exhibition. Unethical fitting is any method altering the natural conformation of any part of the animal's body.

Animals will be disqualified, if in the opinion of the judge or show management, the animal displays signs of having been operated on or tampered with to conceal faults in conformation or to misrepresent the soundness of the animal.

19. The addition of any hair or hair like material to the animal's body, other than tail heads or false tail switches in cattle, will not be permitted. Violations will result in disqualification of the animal.

JUDGES

20. The reputation and ability of a judge is considered during the selection process.

Judges may have to explain their placings. This is part of the educational process which assists exhibitors and livestock producers to improve their herds.

21. The decisions of judges are final. The judge's decision cannot be protested. When fraud, misrepresentation, error or collusion is discovered, the Show Management or appointed referee may change final placement.

PROTESTS

22. A written protest with signature(s) must be delivered to the appropriate Department Superintendent within six (6) hours of a protested occurrence. Department Superintendent must immediately notify Executive Director of Protest. A \$250 deposit (cash, certified check or money order), must accompany the protest. The deposit will be forfeited if the protest is not sustained. Protests will be adjudicated by the Executive Committee; whose decision is final. A protest may only be submitted based on a violation of rules during the show. The protest must be submitted within six (6) hours of the time of the violation.

PARADES AND CONTESTS

23. Exhibitors must ascertain when their livestock will be judged. Animals must be in the ring promptly after being called. Exhibitors failing to comply with this rule may have their animals excluded from competition.

24. If an exhibitor chooses not to show an animal in a class, he/she must notify the Division Superintendent before the class is called.

25. Exhibitors will parade their animals as requested by the Show Management.

Exhibitors of champion and reserve champion market animals may be required to display and handle their animals for photos at or prior to the Governor's Cattleman's Ball.

26. In order to provide meaningful judging contests, Show Management reserves the right to select exhibitor's animals for use in such contests.

PREMIUMS AND AWARDS

27. Premiums and awards are stated in the Rules and Regulations of specific Divisions.

28. Arizona National Livestock Show may apply premium proceeds to amounts owed by an exhibitor, owner or their immediate family members. If such amounts owed are deducted from premium proceeds, a \$25.00 administrative fee will also be deducted. Premiums will be paid as soon as possible after the Arizona National Livestock Show.

29. If premiums are not received by February 28, please call the Arizona National Livestock Show office. Premium checks are made out to the owner as named on the entry. Total premiums of \$600 or more to any individual will be paid only after the Show receives a completed IRS Form W-9. Checks not cashed within sixty

(60) days of the date of issue are void and will NOT be reissued.

30. Judges shall award first, second, third, etc. places according to merit; if without merit, the judge shall make no award under any circumstances. This rule applies whether there are one or more entries in a class.

ARRIVALS AND DEPARTURES

31. All livestock may be individually inspected by show veterinarians or show officials before entering the show grounds. Livestock Officials will inspect paperwork prior to and after any auction.

32. Upon arrival, all livestock exhibitors are to report to the appropriate barn office to receive stall or pen assignments and to turn in any required paperwork including but not limited to health and inspection papers.

33. Release will be between the hours of 6:00 p.m.- 8:00 a.m. each day.

34. Any animals abandoned at the Arizona National Livestock Show will be handled at the discretion of the Executive Director and Show Management. The animal will be sold to a packer. If the exhibitor is later located, the exhibitor will receive market price minus a 20% commission fee or a \$100 fine, whichever is the greater amount. If the exhibitor cannot be located, the Arizona National Livestock Show will keep the money.

THE PHONE NUMBER FOR THE OFFICE OF THE ARIZONA STATE VETERINARIAN IS 602-542-4293.

THE NATIONAL PREMISE IDENTIFICATION NUMBER FOR THE ARIZONA STATE FAIRGROUNDS IS 005E1E5.

This number may be needed for recording movement to, from or within some states under the federal rule on Animal Disease Traceability developed by the USDA.

In addition to the following Arizona National Livestock Show health requirements, all livestock moved into and within the state are subject to rules and regulations of the Arizona Department of Agriculture, which can be found at: http://apps.azsos.gov/public_services/Title_03/3-02.pdf. Contact the Office of the Arizona State Veterinarian at (602) 542-4293 or visit <https://agriculture.az.gov/animals/state-veterinarians-office> for additional requirements. **No animal may be entered in the Arizona National Livestock Show that is currently under quarantine for, or recently exposed to, infectious or contagious disease, or has mange, lice, ringworm, abscesses or ulcerations.**

NOTICE TO MARKET ANIMAL EXHIBITORS

USDA health regulations require that market animals treated with drugs, pesticides or any other chemical must go through the prescribed withdrawal period as listed on the label. Therefore, it is important that exhibitors determine the type of treatments used and proper withdrawal time if the animals must be dipped or treated prior to leaving the point of origin. All veterinary treatments of any type must be pre-approved or prescribed by the Show Veterinarian.

Exhibitors of market animals are required to adhere to the *Wholesome Meat Statement* within this premium book. This ensures that the exhibitor's animal(s) are not adulterated within the meaning of the Federal Food, Drug and Cosmetic Act or the Wholesome Meat Act including the following:

1. The animal does not have any illegal level of any drug or other chemical residue.
2. The withdrawal periods for all approved medications, drugs, pesticides or feed additives administered have been adhered to.
3. The animal has not been fed any feed known to contain protein derived from mammalian tissues such as meat and bone meal (does not apply to swine).
4. The above statements will remain true throughout the show.

BIOSECURITY GENERAL OVERVIEW

For All Exhibitors: The Arizona National Livestock Show has initiated a Biosecurity Protocol for Livestock Health inspections and treatment policies related to general health concerns. This protocol will utilize Arizona licensed veterinary care and if necessary, removal of livestock that is determined to be a possible detriment to other livestock, exhibitors or the public. This information will be provided to exhibitors prior to arrival to the show. Each exhibitor will be responsible for the information provided.

All Arizona National Livestock Show veterinary staff and their approved assistants are provided to ensure the health and well-being of all livestock as well as for the inspection of all health-related paperwork. Areas of concern for all species include but are not limited to are: wounds that are open or closed that may be infectious, warts, active ringworm and fungus conditions, dysentery, pinkeye, lice, mites, foot rot, sore mouth, infectious pneumonia; abscesses which are balding, showing hair separation, open and draining. The Show Veterinarian shall determine when and if livestock must be treated, isolated or removed.

Note: Livestock exhibitors will be responsible for all veterinary fees applied to their animals. The ANLS, at its sole discretion, can require a necropsy (also known as an autopsy), for any animal(s) that may die while on the fairgrounds. All veterinary fees, removal costs and necropsy fees shall be the responsibility of the exhibitor.

ALL GENERAL RULES, REGULATIONS AND CATTLE HEALTH REQUIREMENTS APPLY

1. Owner of record on all animals entering in an IBBA National or Regional point show must be active members of the IBBA in good standing.

FEES:

Individual Entry Fee: \$30.00/head

Group Class Entry Fee: NO Fee

Blocking Chute: \$35.00/chute

Blocking Chute: \$50.00/chute (post deadline)

2. Animals must be registered with the International Brangus Breeders Association (IBBA) to be eligible to compete in an IBBA sponsored show. The registration certificate (or photocopy), for

- each entry must be available for presentation to the superintendent or show manager at the time entries are verified prior to judging.
3. Animals recorded in the IBBA Appendix registry are ineligible to show.
 4. The IBBA and its representatives have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited Brangus animals. Said authority shall extend to, and cover the enforcement of, all show rules as adopted by the IBBA.
 5. The registration number, permanent animal identification number (tattoo or brand), birthdate and sire of each animal entered in an individual class must be listed on the entry form.
 6. Animals eligible to be shown in group classes must be entered and shown in respective individual classes. Cow-Calf pairs are **NOT** eligible for group classes.
 7. Prior to check-in, heads of breeding animals must be clipped of all hair (including topknots) and be free of scurs and/or slick spots.
 8. Any animal found to have scurs and/or slick spots, or evidence of incisions, surgical or otherwise, in the following areas: head, testicles, sheath, navel or dewlap; including scars from caesarean sections, will be disqualified from showing. Animals with illegal white (white in front of the navel), or any indication of brindling (a color pattern characterized by red streaks mingled with black), or red animals with any unacceptable coloring (according to IBBA Red Hide Color Scale – available at gobrangus.com – and including brown, grey, yellow, light to white, white legs, or black muzzle) are ineligible for show.
- Any animal upon check-in which does not have a legible tattoo or brand corresponding to its registration certificate is ineligible to show. Once disqualified due to incorrect or illegible tattoo/brand, animals cannot be re-tattooed and rechecked at the show. The brand/tattoo can be corrected and rechecked at the next available show.
9. All Division and Reserve Division Champions, as well as randomly selected animals, at all IBBA National point shows will have tail hair collected to parent verify the animal. Parent verification requires a DNA profile on both the sire and dam of the animal. Should the sire or dam not currently have a DNA profile on file with IBBA, a certified letter will be sent out to the exhibitor as well as the owner of record for the respective parent. Exhibitor/Owner of Record will be given 30 days to return a tail hair sample to IBBA for DNA analysis. Failure to submit a requested sample within sixty (60) days of show or failure to complete the parent verification process within ninety (90) days of show WILL result in the animal being ineligible to show in all future shows and will result in forfeiture of all accumulated show animal of the year points. Should an animal be parentage verified at a later date, show eligibility and accumulated show animal of the year points will be restored.
 10. Any Brangus animal recorded in the IBBA registry that has a "Parentage Dispute" listed in its first three-generation pedigree is ineligible for participation in Brangus shows and exhibitions. If the dispute is resolved, the listing will be removed from the pedigree and show eligibility will be restored.
 11. In IBBA sanctioned shows, no animal may be shown that has been artificially filled with any amount of liquid at any time

- once the animal enters the grounds of a show. The fitter or ranch entity involved with an animal artificially filled will be banned from the show ring for one year, and the animal will be disqualified from exhibition at that particular show. The official show veterinarian may administer liquids orally, if so needed, without disqualifying animal(s) from exhibition.
12. No animal may be shown that has foreign objects (including ear tags) glued to or otherwise attached, in a manner so as to alter its conformation or change its appearance. Animals unethically fitted to alter the conformation or appearance of the animal will be disqualified. Tail ties and hair nets used on the tail and switch are the only exceptions.
 13. Paint or coloring agents of any kind are not to be used on any animal exhibited at IBBA sponsored shows. The use of aerosol products of any kind will not be permitted in the line-up area for the show. Animals will be towed in the line-up area prior to entering the show ring. Animals found in violation of these policies will be disqualified from showing.
 14. All Brangus bulls fifteen (15) months and older that are exhibited at IBBA-sponsored show must have passed a fertility exam administered by a licensed veterinarian to be eligible to show. The results of the examination must be available at check-in. Once a bull has a positive exam, retesting is not required.
 15. All bulls (shown as an individual entry) must be shown with a nose ring or nose restraint with lead attached.
 16. Weights and scrotal measurements will be taken at check-in at all four (4) of the IBBA national shows. Any bull can be weighed before they enter the show ring and cannot have more than a 7.5% gain. Anyone may protest a bull's gain and cause them to be weighed by submitting a written protest to the ethics committee prior to the start of the bull show.
 17. All females twenty (20) months of age or older exhibited at IBBA sanctioned shows, must have available at the time of check-in, a certificate of pregnancy issued by an accredited, non-owner veterinarian, or blood test results certificate. If the female is open due to being in an embryo transfer program, this fact must be verified in a written statement by a non-owner embryologist. If verification cannot be produced, the female may be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site and verify pregnancy. Females showing in the Senior Heifer division of Spring Shows (January 1 through May 31) must adhere to the classifications and have an IBBA registered natural calf, not older than 250 days of age on show date.
 18. Entries that have not complied with all of the above rules will not be eligible to show, to receive premium monies, or earn points in the IBBA's Show Sire of the Year, Show Bull of the Year, and Show Heifer of the Year awards.
 19. All IBBA and IJBBA members will abide by the show rules as adopted. In addition, any show, fair, event or display in which Brangus cattle participate should follow these rules as adopted by IBBA. All Brangus entries are subject to the provision of a rule of IBBA entitled *Inspection of Exhibits*.

INSPECTION OF EXHIBITS

1. The IBBA and its representatives have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited Brangus animals. Said authority shall extend to and cover

- the enforcement of all show rules as adopted by IBBA.
2. Each exhibitor shall submit his or her registered Brangus cattle to such tests and examinations as requested and/or required by the IBBA, its authorized representatives, or those of the relevant show.
 3. For, and in consideration of, the opportunity to participate in any Brangus function, each exhibitor hereby releases the IBBA, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with the administration or use of such test or examination and the resulting decisions there from.
 4. **Dental Inspection:** All entries may be classified for judging on an age basis and should be entered in class according to age. Teeth may be inspected by a veterinarian designated by IBBA in order to determine whether dental development is within allowable limits for the class entered. If the veterinarian determines that, in his or her opinion, dental development exceeds maximum allowable limits, the animal shall be moved to an older class as determined by the veterinarian and shall remain in that class until determined otherwise by subsequent mouthing or favorable appeal to the IBBA Executive Committee. If it is not possible to move an animal, the animal may not be exhibited in such show.
 5. Any exhibitor desiring to dispute or challenge the results of any such test, exam or show rule enforcement as applied to his or her animal shall do so in accordance with procedures established by the Rules of IBBA.
 6. **Appeal:** An appeal from the decision of the veterinarian or IBBA-designated

association representatives under sections 1 and 4 of the "Inspection of Exhibits" may be made to the Executive Committee of the IBBA if the following requirements are satisfied: 1) The appeal is in writing and is signed by the appealing party, and 2) the appealing party files the written appeal with the IBBA Executive Committee as soon as possible after the veterinarian's or designated association representative's decision was made. If an appeal satisfying the foregoing requirements is filed with the IBBA Executive Committee, then said committee shall hold a hearing at which the appealing party, and the veterinarian or designated association representative whose decision is being appealed shall present statements and other evidence that are relevant to the matter, following which the Executive Committee shall render a decision which shall be final and conclusive.

IBBA DNA TYPING FOR PARENTAGE VERIFICATION

1. Each Brangus, Red Brangus, Ultra-black or Ultra-red animal for which an entry application or registration is received may be subjected to a DNA genotyping test in order to verify accuracy of parentage, according to Rules 5, 6, 7 of the International Brangus Breeders Association (IBBA) Show Eligibility and Inspection of Exhibits. At selected shows and fairs, tail hair samples will be taken from all division champions and reserve division champions, as well as additional random animals, for the purpose of verifying parentage. Staff or a representative of IBBA will supervise the collection of tail hair samples, which can be taken at shows, fairs, and events where IBBA contributes premium money or where IBBA staff personnel participate. If a recorded parent is

excluded (as a parent) as a result of DNA analysis, the owner of the animal may request, at his or her own expense, further determination of the actual parent. Failure to determine the sire and dam will result in the animal being listed in the IBBA Registry as a "Parentage Dispute," and the animal will be ineligible for future shows and exhibitions.

SHOW RULES VIOLATION POLICY

1. All exhibitors must adhere to the IBBA Show Rules Violation Policy as follows:
 - a. A show rules violation to be a valid complaint must be accompanied by a written statement describing the violation, the perpetrator of the violation, and signed by an active member of the IBBA. This written complaint will be presented to an Ethics Committee consisting of the Chairman, Vice-Chairman, Executive Committee Liaison, and an appointed member. All four people will be current members of the show committee. A minimum of two of these members must be present at the show where the rule violation occurs. The Chairman shall appoint other members of the Show Committee to ensure a minimum of two on this committee at each IBBA approved show.
 - b. The Committee shall rule on the validity of the rule violation. The Committee shall visit with the perpetrator, present the written complaint, and make a ruling on the complaint if valid.
 - c. The perpetrator is entitled to appeal any decision made by the Ethics Show Committee to the Executive Committee of the IBBA but the Executive Committee has the right to

disqualify the perpetrator from the IBBA approved show after hearing an appeal. The Executive Committee's decision will be final.

d. Without the Executive Committee's decision, the perpetrator cannot be disqualified from this particular IBBA approved show. However, the animal can be disqualified by the Ethics Committee if the rule violation is deemed valid.

e. For and in consideration of the opportunity to participate in any Brangus function, each exhibitor hereby releases the Association, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with this policy and the resulting decision there from.

\$40.00/single entry

Blocking Chute: \$35.00/chute

Blocking Chute: \$50.00/chute (post-deadline)

Individual entries are separate from pen entries and must be clearly indicated as individuals at the time of entry.

3. **Pen Entries:** The entry fee is \$100.00 per pen, which consists of three (3) head with one (1) alternate allowed or a total of four (4) head per pen entry. Tie-outs are included with no additional fee. If the alternate sells in the auction, then the exhibitor will be required to pay the \$40 entry fee as it would then be an individual entry.

14. Cattle are **NOT** required to be bred or raised by the exhibitor.

ETHICS / ALTERATION

15. Calves are being presented for sale to 4-H and FFA exhibitors as project calves. Alteration of conformation, structure or disposition is unethical and will not be permitted. Violation of these rules will result in disqualification with no recourse and other sanctions deemed appropriate by the Arizona National Livestock Show Committee including barring the exhibitor from future participation and reporting the violation to appropriate organizations or government agencies. Prohibited practices include:
 - a. Administration of any drug that is prohibited by federal, state or local law or use of any drug in a manner prohibited by federal, state or local law.
 - b. Administration of any tranquilizer or other substance that temporarily alters the animal's disposition.
 - c. Internal or external injection of any product or material to an animal for the purpose of deception, including concealing, enhancing, or

transforming the true conformation, color, breed, condition or age.

TIE-OUTS & BLOCKING CHUTES

16. Tie-outs are provided for club calves at no additional fee. Tie-outs may be used from 4:30 p.m. to 8:00 a.m. only. Exhibitors provide all bedding for tie-outs. Club calves may only tie-out in the area designated for this division. No fitting of animals is allowed at the tie-outs.
17. Blocking chutes are restricted to designated areas with permit attached. Blocking chutes are **NOT** allowed in the tie-outs. Blocking chutes without a Arizona National Livestock Show permit will be confiscated and removed from the grounds with no recourse. We suggest exhibitors cooperate with each other to utilize available blocking chutes.

HOUSING

18. All club calves will be stalled together in the Open Cattle Barn and all club calf entries must stay in the designated area.

SIFTING

19. Club calves showing stagnation, wounds that are not healed, or other unsightly conditions will be sifted.

CLASSING

20. A Classification Committee will review the calves during tagging and weighing. If an entry does not exhibit characteristics of the division entered, animals will be transferred to the appropriate division. Exhibitors not accepting the transfer can withdraw the entry from the Arizona National Livestock Show and immediately remove the animal(s) from the grounds.

Entry fees will not be refunded.
Withdrawals cannot be made after
entries have been weighed and tagged.

21. Steers must be entered under their own divisions. Pens and classes are steers only.

ALTERNATE (FOR PENS ONLY)

22. In the case of sickness of one of the calves entered in the pen of three, the alternate entered with that pen may be shown if that individual has the same breed characteristics as the entered pen. The Club Calf Superintendent must be notified of the substitution at least two hours prior to show time.

CLASSES

23. Classes will be divided into equitable weight categories for each division. The number of classes depends on entries in each division. The pen of three (3) and the individuals will be divided and classed by the Club Calf Committee.

EAR TAG & WEIGH-IN

24. Club calves will be ear tagged and weighed one (1) time. This weight is used to class steers. There will be no weigh-backs.
25. If a question arises about the weight of an animal, that animal will be taken off the scale, the scale checked and balanced, and the animal re-weighed immediately. The animal in question cannot leave the scale area until the dispute is settled.
- If an exhibitor leaves the scale area without registering a protest, the scale weight will be considered correct.
26. Ear tags must not be tampered with for any reason. If a tag is lost, contact the Club Calf Superintendent immediately so that it may be replaced.

CLUB CALF SHOW & SALE

27. All previous ear tags will be removed from cattle during ear tagging at the Arizona National Livestock Show.
28. The livestock scale at the weigh-in location is available to club calf exhibitors one day prior to the official weigh-in. Exhibitors should contact a Club Calf Committee member or Club Calf Office personnel for information. Weights taken at this time are **NOT** official.
29. The calves making up the pen of three (3) must be identified when ear tagged. Other calves are assumed to be in the individual section of the Club Calf Show.

JUDGING

30. Judges are instructed to use their discretion against calves considered too fat to be profitable. Judging calves is made on the basis of selecting prospective club calves.
31. At least two (2) head (individual entries), or two (2) pens (pen entries) must be entered and shown in a division to qualify for Division Champions.
32. No class ribbons will be awarded.

ELECTRIC GENERATORS

33. Exhibitors are encouraged to bring portable generators; however, portable generators may **NOT** be operated inside the barns at any time.

AUCTION

34. The sale order is determined by the judge's placing.
35. Pen of three (3) calves are sold by choice lot, on a per head basis. All individuals are sold on a per head basis following the pens.
36. ALL calves in the Club Calf Show will sell at auction. **NO** private treaty sales are allowed.

By entering and submitting a DNA sample for an animal, the owner is giving Arizona National Livestock Show authorization and permission to obtain, maintain and analyze DNA samples, retina scans or any other methods of identification on any animal. Conclusions reached by the testing company/laboratories shall be final, without recourse against the show or its service providers. Arizona National Livestock Show is additionally authorized

Junior Gilts	Dec 1

Violation of ownership or possession requirements is considered an ethical violation and will result in disqualification of the exhibitor, forfeiture of prize money and sale proceeds, and may result in exhibitor being barred from future participation at the Arizona National Livestock Show.

10. At any time after the ownership deadline, Market Animals cannot have been offered for sale at a Market Auction at any community, county, state or national livestock show or fair.
11. Junior exhibitors must show their own animal(s). If an exhibitor has more than one (1) animal in a class, they must find another exhibitor that is currently entered in Arizona National Livestock Show to show their other animal(s). Junior exhibitors must check-in their own animal(s).

If the animal is re-weighed immediately by the Show Official, the second weight is considered final. The animal in question cannot leave the scale area until the weight dispute is settled. If an exhibitor leaves the scale area without questioning the first weight, the scale weight is considered correct. Exception: market swine, crossbred breeding gilts,

market goats, market goat breeding does, market steers, wether ewes and market lambs will not be weighed during check-in. Exhibitors of these species will turn in an official weight at check-in. The re-weigh process will mirror the requirement above.

DRUG USE AND UNETHICAL FITTING

UNETHICALLY FITTED LIVESTOCK

“Unethical Fitting” is hereafter defined as the altering or changing of the natural appearance, weight, musculature or conformation of an animal in an unnatural or artificial manner, including but not limited to, the removal of animal tissue or body part, to cut or tear the hide, to cover, to add artificial tailheads, switches, polls, hair, or heels, or to administer, feed, give or inject any substance or drug to an animal exhibited, except when medically necessary or when the drug used has been approved for such use by the Food and Drug Administration or United States Department of Agriculture. The showing of unethically fitted livestock or livestock of an ineligible age for exhibition in the class entered, and the misrepresentation of breeding status, are prohibited. Unethical fitting means any attempt to alter the natural appearance, conformation, musculature or weight of an animal by any unnatural means, as well as changing the normal conformation of any part of the animal's body or using drugs, medications, chemicals, or other substances (including over-the-counter and extra-label substances and uses), or mechanical devices to alter the physical makeup or performance of the animal.

Unethical fitting includes but is not limited to the following:

- a. Treating or massaging any part of the animal's body, internally or externally, with an irritant, counterirritant, or other substance to temporarily improve conformation.
- b. Minimizing the effects of cramping by feeding or injecting drugs and depressants or applying packs or using any artificial contrivance or therapeutic treatment except normal exercise.
- c. Blocking the nerves to prevent limping or switching of the tail.
- d. Striking the animal to cause swelling in a depressed area.
- e. Surgery or other practices performed to change the natural contour or appearance of the animal's body, hide, hair, or feet (this is to include any materials added to the feet of an animal) except the removal of warts or horns and the permitted clipping and dressing of hair and trimming of hooves.
- f. Insertion of foreign material under the skin.
- g. Changing the color of hair at any point, spot or area on the animal's body. Any grooming material that allows color to come off from any animal will not be allowed at the show.
- h. The use of alcoholic or carbonated beverages in the feed or administered as a drench.
- i. The use of diuretics.

- j. Administration of an illegal, unapproved, or performance enhancing drug internally or externally.

remain free and clear of all residues included but not limited to medications, drugs, chemicals, and other substances.

VERIFICATION

The exhibitor specifically represents that no animal entered by him/her is unethically fitted, and that the breeding, age is correctly stated.

MEDICATION RECEIVED PRIOR TO THE SHOW

Those animals that have consumed or been given, even under the care of a licensed veterinarian, any type of performance enhancing medication, drug, chemical, or substance, including but not limited to steroids, diuretics, anti-inflammatories, tranquilizers and pain killers, are ineligible for competition. Exhibitors with questions regarding medications or eligibility should consult with the Official Arizona National Livestock Show Veterinarian prior to competition. In instances where an animal has been administered a drug that is FDA-approved for its species, the exhibitor must be aware that the time it takes for all drug residue to completely clear the system is generally longer than the labeled withdrawal time for most drugs and varies from animal to animal. Adequate time must have passed so that an exhibitor's animal does not test positive for drugs upon arrival. Once the animals arrive on the Arizona State Fairgrounds, they must

MEDICATION DURING THE SHOW

For the convenience of exhibitors, the Arizona National Livestock Show arranges to have veterinarians available; however, they do not donate their services or medications. Fees should be discussed before treatment. Additionally, it is the exhibitor's responsibility to properly communicate to the veterinarians if the animal is eligible for further competition. All medication and treatment administered during the livestock show must be administered by the Official Arizona National Livestock Show Veterinarian and a written medication record must be filed. Animals receiving performance enhancing drugs (including, but not limited to, steroids, diuretics, anti-inflammatories, tranquilizers and pain killers) in this manner are ineligible for competition. The Official Show Veterinarian is authorized to remove any animal from competition if the health, safety, or welfare of the animal is in question.

DRUG

The term "drug" shall mean any substance the sale, possession, or use of which is regulated by federal, state, or local law or regulation, as well as

any substance used by the medical or veterinary professions that affects the circulatory, respiratory, muscular, skeletal or central nervous system of any species of livestock. If drugs are used by the Official Show Veterinarian to treat a recognized disease in market animals, the withdrawal times listed by the drug manufacturer will be strictly followed.

INSPECTION/TESTING:

a. Each exhibitor, by entering or exhibiting an animal at the Arizona National Livestock Show, agrees that any animal entered by him or her may be subjected to inspection or examination by any veterinarian appointed by the Arizona National Livestock Show and that the Arizona National Livestock Show may subject any such animal to any tests, sample-takings, or inspections that Arizona National Livestock Show deems necessary or appropriate, including but not limited to testing for drugs or other substances, at any time. The Arizona National Livestock Show shall have the right to conduct or have conducted for it all tests, inspections, or analyses it deems appropriate or necessary, including but not limited to ultrasound, D.N.A., blood, tissue, and urine laboratory analysis, on any animal entered in or exhibited at the Arizona National Livestock Show. The exhibitor or approved substitute exhibitor (and, for Junior exhibitors, the exhibitor's

parent, legal guardian, or AST or CEA) must be present during the collection of an initial urine sample for testing and must witness, seal and sign the sample, thereby establishing that the sample was properly collected and prepared for analysis. Subsequent samples of any sort may be taken by or for Arizona National Livestock Show without the presence of the exhibitor or his or her parent, legal guardian or AST or CEA.

b. All decisions, determinations, and conclusions based on any test, inspection, analysis, or examination shall be final and conclusive without recourse against Arizona National Livestock Show or any of its officers, directors, volunteers, and employees, or any veterinarian appointed by Arizona National Livestock Show.

c. Each exhibitor, by entering and exhibiting an animal or project in or at the Arizona National Livestock Show, waives and releases the Arizona National Livestock Show from any and all claims, suits, causes of action, liabilities, damages, demands, costs, expenses (including attorneys' fees), and other losses of every sort based on, arising out of, or relating to the inspection or testing of any such animal and any ruling, decision or action taken as a result of or in reliance on the results of any test or inspection, whether or not such testing or inspection was conducted in compliance with these rules. The foregoing waiver

and release applies to any causes of action, claims, and demands based on the Arizona National Livestock Show's actual or alleged negligence.

- d. The initial testing conducted at the election of Arizona National Livestock Show will be paid for by the Show. Payment for any other tests (i.e. testing of split samples, blood typing, etc.) required in the Junior or Open Livestock Show will be the sole responsibility of the exhibitor and at the discretion of the Official Show Veterinarian.

BREEDING ANIMALS

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to steroids, diuretics, anti-inflammatories, tranquilizers and pain killers.

WHOLESOME ASSURANCE STATEMENT

All exhibitors must read, agree and abide by the Wholesome Assurance Statement in the Premium Book. By certifying an entry each junior exhibitor, exhibitor's parent or legal guardian acknowledges that he/she has read all rules and regulations of the Arizona National Livestock Show premium book, and clearly understands and agrees to abide by all said rules and regulations and the Premium Book in its entirety.

Further, all signatories understand and agree specifically to those rules that define animal testing, DNA requirements and procedures as

well as the Wholesome Assurance Statement and USDA Wholesome Meat Act.

WHOLESOME MEAT ACT

The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited:

- a. Animals must be in good health and carcasses free of drug or chemical residues.
- b. Drug label directions for use and withdrawal periods must be followed.
- c. If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned. The Arizona National Livestock Show will in no way be liable or responsible for the condition of carcasses or the sale price of the animal.

FEDERAL FOOD, DRUG AND COSMETIC ACT

As required in 21 CFR 589.2000, entry in the Junior Market Steer, Junior Market Goat, Junior Market Lamb, and Junior Market Barrow Show shall serve as verification by the exhibitor that, to the best of their knowledge, while under their ownership, possession or direct control, the animal(s) were not fed any feed containing ruminant-derived meat or bone meal. Entrants agree to allow packer inspections of feed ingredient records and facilities.

CONSEQUENCES OF UNETHICAL FITTING

1. In the event that Arizona National Livestock Show determines any

animal to be unethically fitted, the Executive Committee is authorized to disqualify the exhibitor and his or her animal and may permanently bar the exhibitor and his or her family from any further participation in the Arizona National Livestock Show. Reinstatement of any barred exhibitor may be made only by the Executive Committee. The exhibitor will forfeit all titles, awards, prizes, auction proceeds, premiums and scholarships if the animal or exhibitor is disqualified. Market/Floor money will be forfeited if the animal is condemned at slaughter or

deemed unmerchantable. The Arizona National Livestock Show, in cooperation with member shows of the North American Livestock Show & Rodeo Managers Association, reserves the right to submit the name(s) of any disqualified exhibitor to the organization's Rule Infraction Database. The Arizona National Livestock Show reserves the exclusive right to categorize drug use in one of the categories listed below.

2. If an animal is disqualified, changes will not be made to the placings of other animals.

CONSEQUENCES OF POSITIVE DRUG SAMPLE RESIDUE

Arizona National Drug Classification	Consequence
Category 1 – Drugs that are labeled for use in that species and have established withdrawal times	Any drug residue found that is labeled for that species will result in immediate disqualification for current year show and forfeiture of premiums/auction money. Exhibitors will be banned for three (3) years with opportunity for appeal and re-admittance after suspension.
Category 2 – Drugs/substances that are not labeled/approved for use in that species (includes, but is not limited to: caffeine, marijuana, phenylbutazone)	Any drug/substance residue found that is not approved for use constitutes immediate disqualification from current show and lifetime ban from future shows, forfeiture of premiums/auction money.

The Arizona National Livestock Show supports and endorses the Wholesome Assurance Statement as listed below. The Arizona National Livestock Show is a zero tolerance show and as such has adopted a more stringent policy with regard to actionable levels of drugs, pesticides, feed additives or other chemicals.

WHOLESOME ASSURANCE STATEMENT

- The use of animal drugs or other substances by non-veterinarians in any manner other than in accordance with the labeling approved by FDA, is a violation of federal law.*
- Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substance (identified or unidentified), including drugs, pesticides, feed additives, or other chemicals.
- Violative results of residue testing are subject to investigation by USDA and FDA for prosecution.
- Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.
- Manual of Meat Inspection: The Manual of Meat Inspection Procedures of the USDA states that carcasses must be free of actionable levels of antibiotics, hormones, or pesticide-chemicals to pass as safe and wholesome food. Detection of illegal residues of these substances may lead to stiff penalties on the part of the producer. Therefore, label instructions, precautions, warnings, and withdrawal periods must be carefully followed.

** Note: Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.*

Drug withdrawal periods must be completed prior to arrival at the show.

NATIONAL CODE OF SHOW RING ETHICS

AS ADOPTED BY THE ARIZONA NATIONAL LIVESTOCK SHOW

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior class exhibitors who compete in structured classes of competition. This code applies to all junior livestock offered in any event at a livestock show. In addition to the "National Code of Show Ring Ethics," fairs and livestock shows have rules and regulations which they impose on the local, county, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the Code of Ethics will forfeit premiums, awards and auction proceeds, and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this

Code of Ethics demean the integrity of all livestock exhibitors and should be prohibited

from competition at all livestock shows in the United States and Canada.

The following is a list of policies for all junior exhibitors and all junior livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood or other samples taken from livestock indicates the presence of forbidden drugs or

medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by an ANLS approved licensed veterinarian.

5. No other animals will be allowed to be consigned to the packer. A 7% commission is deducted from the exhibitor's sale proceeds for animals sold in this group.
11. Maximum pay weights as established under the rules of each division also apply to non-auction sales.
12. To sell non-auction animals, exhibitors must sign consignment sale paperwork in the Arizona National Livestock Show Office. This paperwork can be completed between 3:00 and 6:00 p.m. following the Department Show. Deadline to complete consignment sale paperwork is 4:00p.m. December 30th. The Department

Superintendents must pick up copies of this paperwork from the Arizona National Livestock Show Office.

SALE PROCEEDS

Arizona National Livestock Show may apply sale proceeds to amounts owed by an exhibitor, owner or their immediate family members. If such amounts owed are deducted from sale proceeds, a \$25.00 administrative fee will be deducted.
16. Dockage taken by the packer for carcasses of animals sold will be deducted from the exhibitor's sale proceeds if the dockage is a result of the animal's condition when sold, and not due to unusual shipping losses. The

amount deducted from the sale proceeds is calculated by subtracting the docked carcass value from the rail carcass value for like animals sold.

17. Handling and transportation fees may be deducted from resale payments to exhibitors. (This fee is beyond the 7% commission)
18. If an animal is condemned at slaughter for any reason, the exhibitor will not receive payment for the animal and must accept the consequences without recourse against the Arizona National Livestock Show.
